Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 6-10 and 12-14 are rejected under 35 U.S.C. 102(e) as being anticipated by Tobita.

Please see the comments made in regard to the above rejection in the previous Office action.

Claims 11 and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Tobita.

Please see the comments made in regard to the above rejection in the previous Office action.

Applicant's arguments filed 6/27/03 have been fully considered but they are not persuasive.

The language added to the claims fails to patentably distinguish over Tobita. The applicant's attention was previously directed to the first paragraph of column 3 of this reference. It states in relevant part: "heat conductivity in . . . any direction . . . as well as . . . thermal expansion coefficients has become possible to control, by orienting the . . . fibers not only in on direction of the [thickness] or . . . of a surface . . . but also in a plurality of directions . . . in three directions or more of the thick direction and two directions or more within the surface (the Z direction and the X direction, the Y direction *and another direction within the X Y surface*)" (emphasis added). Clearly, any "other" direction within the X Y surface must necessarily be at some angle

Art Unit: 3743

other than 0 or 90 degrees to both the X and Y direction. If it were perpendicular or parallel to either, then it would by definition be either the X or Y direction, not "another" direction.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
